

# Macomb Township

## Macomb County, Michigan

Macomb Township is located at the geographic center of Macomb County. Positioned north of Hall Road (M-59), the Township is currently experiencing rapid suburbanization due to the development of residential tracts which have followed the expansion of water and sewer service.

Macomb Township grew very rapidly between 1980 and 2000. During that period, the population more than tripled to a 2000 population of 50,478. The number of occupied housing units grew at a similar rate for the same period.

Historically, agriculture has dominated the landscape of the township. However, a significant amount of this land is now single-family residential or lies vacant. Five golf courses and several local parks offer seasonal recreation opportunities to residents. Lakeside Center and other commercial facilities are located in neighboring communities to the southwest of the Township. Industrial activity is located along Twenty-three Mile Road and in the southeast corner of the Township.

Hall Road (M-59), Twenty-three Mile and Twenty-six Mile Roads provide east-west routes across Macomb Township, while Romeo Plank, Hayes and North Avenue facilitate north-south movement.
